

The most reliable and easy-to-use backup for businesses of all sizes

EvoBackup is the world's easiest and fastest backup solution that protects Windows & Linux Servers, Virtual Machines, PC & Mac, Office 365, Applications, Mobile Devices. With just a few simple steps, you can back up to on-premises storage and the EvoBackup Cloud and recover individual files, application data, or a complete system in seconds. And, with Active Protection, you can protect your server from ransomware with a technology that actively detects, blocks, and reverses suspicious changes to data, backup files, and backup agents.

KEY FEATURES

1. Unified Cloud Console

- Customizable backup operations dashboard and reports
- A single console to manage all services
- Already in the EvoBackup Cloud – zero installation required

2. Protection

- On-premise, remote, cloud
- Windows®, Linux®, Mac®
- VMware vSphere®, Microsoft, Hyper-V®, Citrix XenServer®, Linux KVM, Red Hat® Enterprise, Virtualization, and Oracle VM Server
- Amazon EC2®, Azure®
- Office 365®
- Exchange, SQL®, SharePoint®
- Active Directory®
- iPhone®, iPad®, Android®

3. World's Fastest Recovery

- Granular recovery
- Bare-metal recovery
- Universal Restore
- Instant Restore™
- vmFlashback™
- Virtual host recovery
- Automated recovery
- Any-to-any migration (P2V, V2V, V2P, P2P, P2C, C2C, etc.)

4. Security Features

- Multi-tenant cloud
- 2048-bit SSL channel encryption
- AES-256 FIPS 140-2 certified data encryption in transit and at rest
- Tier-IV designed, SSAE-16 certified data centers
- Network based login restrictions

5. Active Protection™ - Ransomware Protection

Protects your data and systems from ransomware attacks by detecting, blocking, and reversing suspicious changes to data, backup files, and the backup agent.

6. Management and Customization

- Multi-tenant service platform with multiple partner tiers
- Granular control over quotas for storage and devices
- Automated backup agent updates from the cloud for easy maintenance

7. Flexible Storage Options

- Local disks
- NAS, SAN
- EvoBackup Cloud Storage
- Off-host operations
- 12 data centers worldwide
